

IMPORTANT: FINAL RE-APPEAR DATA FOR ODD SEMESTER AY 2023-24 ALONG WITH COURSE COORDINATOR LIST.....

Dear **Students**,

We want to express our sincere gratitude for your invaluable support in finalizing the re-appear data for the Odd Semester of Academic Year 2023-24. The collaborative effort from each one of you has greatly contributed to the success of this process.

We are pleased to inform you that we have now successfully concluded this phase, and we are no longer accepting further requests in this regard. Please find attached, in both Excel and PDF formats, the comprehensive "**Final Re-appear Data**" for the Odd Semester of Academic Year 2023-24. This data has been meticulously **compiled based on** the **ERP Registration** and the **mapping forms** that were submitted at the Dean's Office by students reappearing under the "Regular Mode," either due to previous detention or in pursuit of improving internal performance.

The attached data provides a detailed breakdown of the mode of registration for reappearing courses, which can either be under the "**Supplementary Mode (SE)**" or the "**Regular Mode (RM)**". Additionally, it includes the specifics of section/class mapping for regular mode students, as per the details submitted through mapping forms.

For students registered under the "Regular Mode", it is imperative to attend the scheduled classes in their respective sections/classes diligently and fulfill the attendance requirements this time around to prevent any further detentions. Their attendance records will be diligently maintained and updated throughout the semester on the ERP platform through the course coordinator panel. A minimum attendance threshold of 70% is mandatory for these courses, similar to the current semester, to qualify for major tests and avoid detainment. Students under regular mode appear for the complete evaluation process again.

Kind attention @faculty members: We kindly request all faculty members who are responsible for teaching reappearing students under the Regular Mode (*please refer to the attached data for specific details*) to keep manual attendance records in Excel format and enter this data into the ERP system through the Course Coordinator's panel. Students are urged to ensure that their faculty members regularly update their attendance records. For your convenience, a list of course coordinators in both Excel and PDF formats is also enclosed with this communication.

For students who have opted for reappear courses in the "Supplementary Mode", please note that it is essential to appear for both minor and major tests to successfully pass these courses. The evaluation scores under other heads will remain unchanged. Refer to the course coordinator list attached herewith for timely guidance and assistance on this matter.

We strongly advise all students to dedicate their best efforts to clear their reappear course(s) as unresolved backlogs can lead to academic year losses and jeopardize future placement and job opportunities.

Should you require any further guidance or assistance, the Academic Office, located at RN 123, is readily available to provide the necessary support.

Once again, we extend our heartfelt thanks for your cooperation in making this process a success.

Thanks & Regards

Dean Office
